NOVEMBER 22, 2013

Mr. Samuel Peterson
1200 Pennsylvania Avenue, N.W.
WJC Building, Room 2524
Mail Code 1201 A
Washington, D.C. 20460

Dear Sir:

The Town of Trenton, North Carolina, continues to being racial superiority by intent, as to sewage being disproportionately, and/or, equally applied to African-American Neighborhoods, who were from its initial beginning an official part of Trenton 201 [EPA] Facilities Plan, in its entirety, from March 17, 1978, unto the filing of this complaint, which was applied, solely, to Whites only, which has a discriminatory effect [result], to many said areas within the complaint, "which was not denied out of benevolence but malice," signifies a clear similar appearance of the Equal Protection Clause [14th Amend.], and Title VI of the Civil Rights Act of 1964, which was result of systematic racial discrimination in violation of African-Americans Constitutional rights, who seeks a "full" personal, inquisitive "review" of EPA Grants # C 370442 – 03 and C 370089 – 01, and their actions, which were not equally applied, and has a continuing offense, effect.

I allege that the Trenton and Jones County 201 Facilities Plan should have addressed the needs of the residents within the planning areas regardless of race, color, sex, or national origin. I ask that a determination on what needs exist for the said areas' residents; to identify "old" solutions, that was ignored by the town, to their problem and to resolve this, and/or, about 1975 sewage [wastewater] discrimination complaint, and re-open and review, in person, the Trenton/Jones County 201 Facilities Plan and address the needs, in the above areas, which has a continuing offense, effect.

From the initial beginning, unto the filing of this complaint, the residents in the areas of Spicey Quinn Land, Landfill Area, and the Back Street Extension, have septic tanks reliability and operation. Whereas, the sewage plant is located in the "Backstreet Extension area," no residents within the area were allowed to be served, because of their race, color, sex, and national origin.

The "Landfill Area" residents, which has two [2] previously, public African-American Schools, in an all African-American Community, unto this day, were not allowed sewage, simply because of their race, color, sex, and national origin; and the Town, County, and Board of Education, unto this day, continues to state, "that they do not have enough money in the budget" to allow the

sewage from the two [2] schools, to the Town of Trenton sewage facilities. The Town of Trenton and the County of Jones “used” their influence, at all times relevant, that “affected” the School Board’s decision [s] for sewage for the two [2] public schools, in question. See, Brown v Board of Education [1954] Order [1954 – 2013], to no avail.

These residents were an official part of the Trenton/Jones County 201 Planning Facilities, in every respect, shape, form or fashion, and should have been treated as such. I ask that you resolve this discrimination complaint, in its entirety, as soon as possible, which has a continuing offense, effect.

Legal action was filed by the United States Attorney General Ramsey Clark in 1967, Ramsey Clark, U. S. Attorney General v Jones County School Board Case Number 732 also, 4:13 – 5 H and 6 H, [2013] filed by me. Also, the NAACP filed a claim against the School Board during this period.

See, Exhibits appended hereto.

Sincerely,
